Summary

Dynamic and result-driven Software Engineer with expertise in full-stack development and cloud computing. Experienced in building scalable web applications using Java, React.js, AWS. Hardworking, Highly motivated and Adept at collaborating with cross-functional teams to deliver high quality software solutions.

Education

- **Kendriya Vidyalaya Kanhangad** 2016
Secondary School (SSLC)
9 CGPA
- **Kendriya Vidyalaya Kanhangad** 2018
Senior Secondary (12th)
82.6 %
- **Mangalore Institute of Technology and Engineering** 2018-2022
BE in Computer Science & Engineering
7.62 CGPA

Skills

- Languages : C, C++, Python , Java, SQL.
- Web Development: HTML, CSS, Javascript, Tailwind CSS, RESTful APIs.
- Frameworks & Libraries: Spring Boot, Django, React.js, Redux, Node.js.
- Cloud Computing: AWS Lambda, Cloudwatch, Cloud formation, DynamoDB, S3, ECS, EC2.
- Developer tools : Git, GitHub Actions, Docker, Terraform, VS Code, Intelli J.
- Soft skills : Problem-solving, Effective communication, Interpersonal skills, Agile learner.

Experience

- **Moversly ,Singapore.** 2023 - Present
Junior Software Developer
Developed and maintained web applications using Java Spring Boot, React.js and Redux.
Designed, developed and maintained Terraform scripts for automating the provisioning and scaling of AWS resources, ensuring a streamlined and consistent infrastructure.
Utilized AWS services to deploy and manage scalable and reliable infrastructure.

Projects

- **Covid Cases Near Me | (Group of 2)**
A Mini Project done using the concepts of DBMS. We have created a web pages using HTML and CSS which serves the purpose of searching the covid case patients and their details using the search parameter as the Area Pincode.
- **Detecting Abnormal Activities in ATM Centres (Machine learning & Computer vision) | (Group of 4)**
In this project we worked on improving the facial recognition of the users that operates the ATMs and be able to detect their faces even though their faces are partially or fully covered using Artificial Intelligence (AI) and Machine Learning Models.

Internships

- Web Development intern at Let's Grow More 2021, Designed and developed Web pages based on tasks using HTML, CSS, Javascript and React.js.
